

Lesson 5: Typing text in a Text Box

In any project you may want to add more text than just a short caption. To add text, you can type it into a box or insert a text file. Styled text and graphics can also be added to a text box.

This lesson guides you through the process of creating a new text box and typing simple text into it.

Lesson 5: Typing text in a Text Box

OK!

You have completed Lesson 5: Typing Text in a Text Box

You now have a text box with some text in it. Text formatting is covered in a later lesson.
