

# Lesson 8: Creating a New Scene

A scene is not just a “page” – it is a segment within a dramatic play. A single scene can contain many events and experiences. When a scene is complete you can readily add new scenes to the session.

This lesson guides you through the process of creating a new scene in your session.

## A NEW SCENE!

**You have completed Lesson 8: Creating a New Scene.**

A new scene has been created. It is displayed in the Session Map and automatically becomes the current scene. You are now ready to produce the new scene.

You will learn how to link scenes together later in this tutorial
