UltraKey 6 Multi-station and Multi-school Licenses with Local or Cloud-based Learning Management		
<p>"Network" means the UltraKey clients software may be installed on local workstations, application servers, or terminal servers. The number of stations required is determined by counting the number of workstations or terminals on which UltraKey will be used, regardless of where the client is actually installed.</p> <p>"IP" stands for Internet Protocol. All multi-station licenses for UltraKey include the UltraKey Data Server software which may be installed on any local or centralized Windows server. A teacher-workstation can be used as a server but the workstation must have a static IP address. One central installation of the UltraKey Data Server software can serve over 100 schools at a time. Alternatively, customers can subscribe for cloud-based data management. See Optional Cloud Based Data Service.</p>
